

Task 2

My name is 'Spritely Fae'. I fly around our pools and streams and whisper to all who visit the water's edge; "Please promise to step with care, when near our ponds and streams. With just one slip, just be aware, they'll eat your hopes and dreams... Oh and you'll get really really, dirty, cold and wet!"

✔ The waters on Cannock Chase can be very dangerous, if you're not careful. There are other ways to enjoy them. Complete this task, to show others.

● Spot 3 different things that float.

● Insects and creatures make water rings when they touch its surface. How many water rings appear in 10 seconds?

● Look at the surface of the water, and see the reflections. Can you work out what they are?

● Near water you'll see lots of different plant life, like this bobbly moss. Can you spot a funny plant?

● What wildlife can you spot around or on the water?

● Listen to the water. What sounds does it make?
